Weatherseal[®]
Stylized to Perfection

European Windows and Doors

by

ap **asianpaints**

A scenic landscape featuring a calm lake in the foreground, reflecting the sky and surrounding scenery. The middle ground is filled with trees in vibrant autumn colors (yellows, oranges, and reds) and a few buildings nestled among them. In the background, majestic mountains with patches of snow rise against a blue sky with wispy white clouds. The overall atmosphere is peaceful and picturesque.

GET TO KNOW US: A COMPANY OVERVIEW

Established in 2015, Weatherseal forged a partnership with Asian Paints in 2022, combining expertise to offer cutting-edge uPVC Window and Door systems tailored to Indian standards. This environmentally friendly alternative to traditional options boasts advanced technology, aesthetic appeal, and enhanced security, ensuring unparalleled efficiency and top-notch quality. With over 5 million square feet of windows delivered and a production capacity of 360 windows per day, Weatherseal operates factories in Karnataka and Haryana. Weatherseal is trusted by renowned architects and leading builders.

COMPANY HIGHLIGHTS:

MILESTONES ALONG THE WAY

2015

Company came into existence

2016

Completed numerous high-rise and residential projects

2018

Expanded with multiple experiential retail stores and dealers

2022

Partnered with Asian Paints enabling PAN India expansion. Introduced Weatherseal Displays at multiple Asian Paints retailing outlets (Beautiful Homes & Sleek) across India

2023

Opened a new factory in Haryana, doubling production capacity. Launched a new system for aluminium profile offering

YOUR PATH WITH US:

EXPLORING THE CUSTOMER JOURNEY

Embark on a journey with us as we guide you through every step of your project. From the initial consultation to post-sales support, we're committed to delivering excellence at every stage.

INITIAL CONSULTATION

Discuss project requirements and goals in detail.

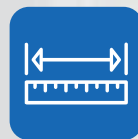

SITE VISIT AND FEASIBILITY ASSESSMENT

Assess site conditions and feasibility of the project. Customize options with profiles and samples.

MEASUREMENT, DESIGN, AND QUOTATION

Take precise measurements, create customized designs, and finalize project quotation.

DRAWING AND PRODUCTION

Develop detailed drawings and begin production of customized components.

QUALITY CHECK AND DISPATCH

Conduct thorough quality checks to ensure all components meet the standards before dispatch.

INSTALLATION AND HANDOVER

Professionally install components, including cleanup, and hand over the completed project.

POST-SALES SERVICE

Provide ongoing support and assistance for any post-installation needs.

FACTORY FACILITIES

STATE-OF-THE-ART FACILITIES

Our facilities span 1,50,000 sq. ft., equipped with fully automated CNC machinery. 4 lines of uPVC and 1 line of system aluminium manufacturing.

HIGH-QUALITY MATERIALS

We craft premium windows and doors using top-grade raw materials, ensuring durability and performance.

PRECISION MANUFACTURING

Our windows are crafted with fully automated European CNC machineries operated by a skilled production team, guaranteeing precision and excellence.

EXPERT INSTALLATION TEAMS

Our installation teams are extensively trained to ensure flawless execution, regardless of project size.

EFFICIENT PROJECT EXECUTION

We excel in managing projects of any scale efficiently and effectively.

AUTOMATED SERVICE LEVEL AGREEMENT (SLA)

Our automated SLA ensures timely delivery and installation, with customers receiving notifications at each stage of the process.

EXTENSIVE INSTALLATION EXPERIENCE

Over 5 million square feet of windows installed and ongoing.

TRUSTED BY INDUSTRY LEADERS

Preferred by top builders and architects nationwide.

HIGH-QUALITY AND INNOVATIVE PRODUCTS

Offering innovative products of exceptional quality, backed by a 20-year warranty.

COMPREHENSIVE RANGE

A wide selection of products to meet diverse needs.

EUROPEAN ENGINEERING AND GERMAN MACHINERY

Utilizing European engineering and German machinery for precision windows.

TAILORED FOR INDIAN CLIMATES

Windows and doors specifically designed to withstand Indian climates.

CHOOSING uPVC: THE SMART CHOICE

AESTHETICALLY PLEASING

Blend European innovation with Indian standards, providing a modern, eco-friendly alternative.

RESILIENT

Crafted for durability and weather resistance, reinforced with galvanized iron for stability. UV-resistant material ensures long-lasting performance in harsh conditions.

ENVIRONMENTALLY FRIENDLY

Great value—affordable, energy-saving, and stylish with low upkeep. Their durability and recyclability make them an eco-friendly investment.

EASY MAINTENANCE

Low-maintenance and cost-efficient windows resist weather and wear, needing only a wet sponge for cleaning, no varnishing or repainting required.

EXCELLENT INSULATION

Shield against pollution, dust, pollen, and heat, ensuring a cool, comfortable home. They also provide superior sound insulation for a peaceful, quiet environment.

ENHANCED SECURITY

Our windows provide top-tier security with robust frames, multi-point locks, GI reinforcements, tough glass, ensuring both safety and peace of mind for homeowners.

WEATHER-RESISTANT

Double-seal design, resist dust, rain, and wind, featuring water drains, raised rails, and slopes to prevent indoor leaks. They're immune to peeling, rotting, corrosion, drying, and termites.

ENERGY EFFICIENT

Window frames maintain consistent indoor temperatures, reducing energy bills and providing environmental benefits.

TERMITE-RESISTANCE

Termite-resistant and synthetic, uPVC windows offer easy maintenance and protection from insects. They do not rot, warp, or require extensive upkeep.

DISCOVER THE MAGIC OF UPVC WINDOWS AND DOORS

Picture the gentle sunlight filtering through high-quality uPVC windows, illuminating your living space evenly. With optimal insulation properties, these windows ensure a comfortable indoor temperature while reducing energy costs. Enjoy improved air circulation and ventilation, enhancing the freshness of your home environment.

This is the magic of uPVC windows and doors, seamlessly blending beauty with functionality. They enhance your space, keeping it cozy in winter, cool in summer, and secure all year round.

THE FUTURE OF WINDOWS AND DOORS

Elevate your space with our advanced uPVC windows and doors, engineered for peak performance and durability. Dive into innovation and precision engineering, ensuring seamless integration with your space through a variety of tailored configurations.

WINDOWS & DOORS

Casement | French | Sliding | Fixed | Bay | Tilt 'n' Turn | Arch | Awning
Slide & Fold | Lift & Slide | Ventilators

INVITING SERENITY: CASEMENT WINDOWS

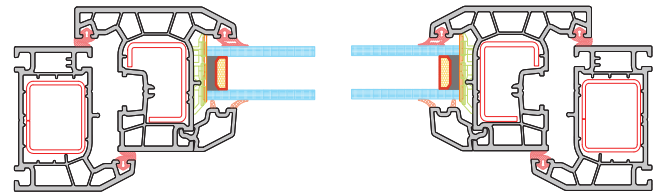

Casement windows offer a timeless elegance, inviting the outdoors into your sanctuary with a gentle push. Their sleek design and easy operation create an atmosphere of sophistication while providing ample ventilation and natural light.

DIMENSIONS

Min : H: 1.5ft x W: 1.5ft | **Max :** H: 5ft x W: 2ft

HARDWARE CROSS-SECTION

CLASSIC CHARM: FRENCH WINDOWS

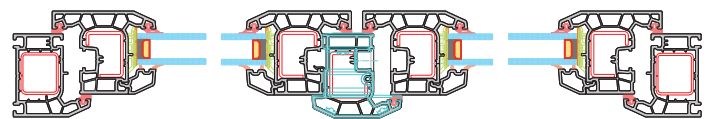

French windows, with their classic charm, invite the outside world to seamlessly blend with your interior space. The innovative design offers an unobstructed view, letting in a flow of ample light and fresh air in your home, creating an ambiance of openness and freedom.

DIMENSIONS

Min : H: 1.5ft x W: 3ft | **Max :** H: 5ft x W: 5ft

HARDWARE CROSS-SECTION

SLEEK AND SUSTAINABLE: SLIDING WINDOWS

Sleek, secure, and sustainable, uPVC sliding windows redefine modern living. With a smooth glide along dust-free tracks, they merge form with function, conserving space without compromising style. Weatherseal offers a comprehensive range of sliding windows tailored to your size, wind load, insulation, and design needs.

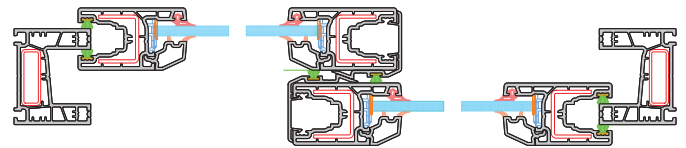

DIMENSIONS

Min : H: 1.5ft x W: 3ft - 2 Panels

Max : H: 5ft x W: 18ft - 6 Panels

HARDWARE CROSS-SECTION

CLEAR VISTAS: FIXED WINDOWS

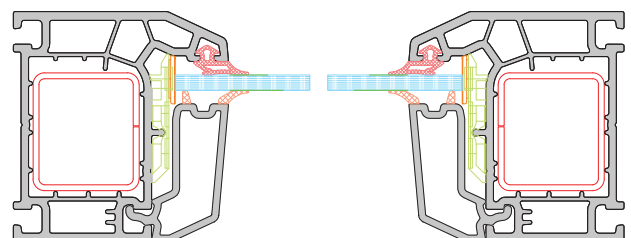

Fixed windows provide unobstructed views of the surrounding landscape and remain securely closed. They're perfect for letting in plenty of light, ensuring clear visibility, and maintaining a comfortable indoor environment.

DIMENSIONS

Min : H: 1.5ft x W: 1.5ft | **Max :** H: 10ft x W: 10ft

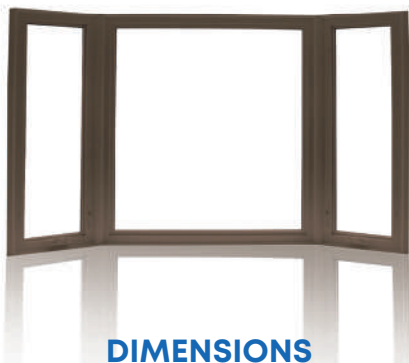

HARDWARE CROSS-SECTION

PANORAMIC PERFECTION: BAY WINDOWS

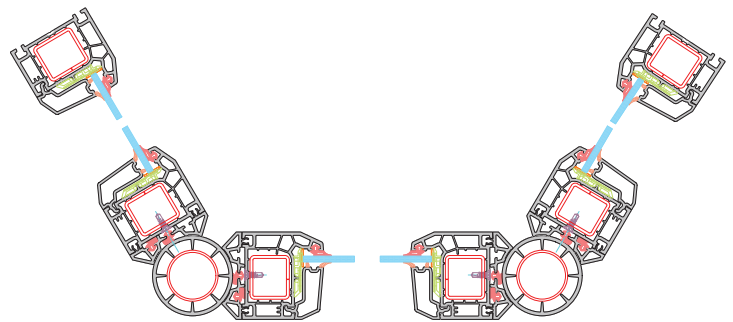

Bay windows generously welcome sunlight, infusing rooms with an airy spaciousness and crafting a cozy interior nook. A bay window is formed by combining two or more casement windows at an angle, offering sweeping views, enhancing the charm and character of any home.

DIMENSIONS

Min : H: 1.5ft x W: 1.5ft | **Max :** H: 5ft x W: 2ft

HARDWARE CROSS-SECTION

INNOVATION: TILT 'N' TURN

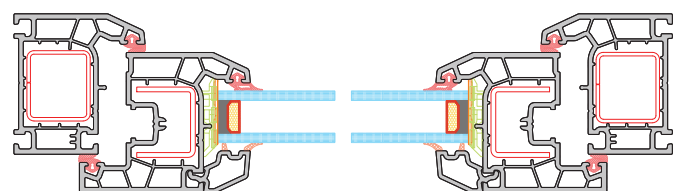

Tilt 'n' Turn windows combine European sophistication with versatile functionality. Offering three positions - tilt, open, lock - they ensure optimal airflow and easy maintenance. The tilt function allows draft-free ventilation, while heavy-duty locks provide security and insulation.

DIMENSIONS

Min : H: 2ft x W: 1.5ft | **Max :** H: 5ft x W: 2.5ft

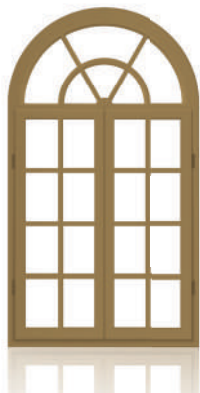

HARDWARE CROSS-SECTION

ARCHITECTURAL GRACE: ARCHED WINDOWS

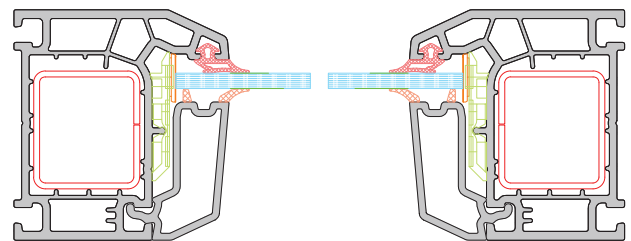

Arched windows, with their curved tops, bring a regal charm to any space. They allow ample natural light, enhancing the room's brightness and ambiance. These windows serve as striking focal points and contribute to the architectural allure and enduring beauty of the space.

DIMENSIONS

Min : H: 1.5ft x W: 3ft | **Max** : H: 5ft x W: 5ft

HARDWARE CROSS-SECTION

CLIMATE-CONTROLLED COMFORT: AWNING WINDOWS

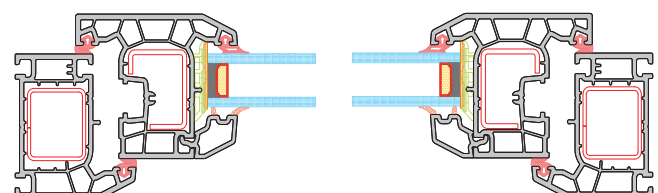

An awning window is a type of casement window hung horizontally, hinged at the top, allowing it to swing outward. Utilizing a double glazed technique and uPVC frames, these windows provide energy efficiency, maintaining optimal indoor temperatures by keeping homes cool in summer and warm in winter.

DIMENSIONS

Min : H: 1.5ft x W: 1.5ft | **Max** : H: 3ft x W: 3ft

HARDWARE CROSS-SECTION

REFRESHING AIRFLOW: VENTILATORS

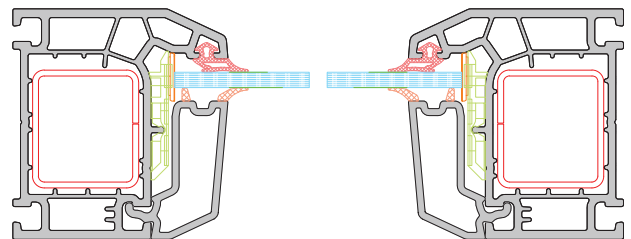

Ventilator windows, open inwards or outwards. They're perfect for spaces needing fresh air like kitchens, bathrooms, and utility rooms. Equipped with adjustable louvers, they regulate airflow for optimal comfort and air quality, responding to air pressure changes.

DIMENSIONS

Min : H: 1.5ft x W: 1.5ft | **Max :** H: 5ft x W: 4ft

HARDWARE CROSS-SECTION

EMBRACING SPACE AND STYLE: SLIDE AND FOLD DOORS

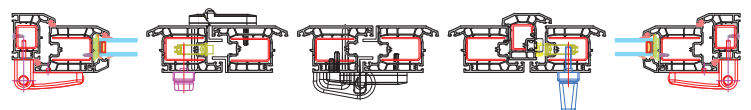

Slide and Fold Doors, also known as bi-fold doors, feature multiple panels that elegantly fold inward as they glide on a smooth track. When fully opened, these panels stack neatly beside the opening, creating a wide entrance and expanding your space seamlessly.

DIMENSIONS

Min : H: 6ft x W: 6ft | **Max :** H: 8ft x W: 14ft

HARDWARE CROSS-SECTION

EFFICIENT ELEGANCE: CASEMENT DOORS

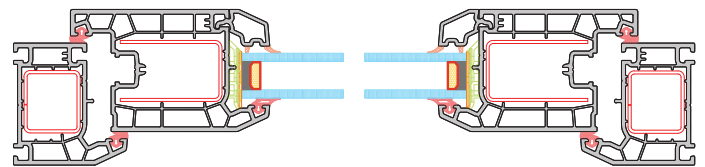

Casement doors seamlessly blend style and versatility, elevating any space with their appeal. Favored for their adaptability, they can be hinged to open inward or outward, offering a timeless aesthetic combined with modern functionality.

DIMENSIONS

Min : H: 6ft x W: 2ft | **Max :** H: 8ft x W: 4ft

HARDWARE CROSS-SECTION

SEAMLESS CONNECTIVITY: SLIDING DOORS

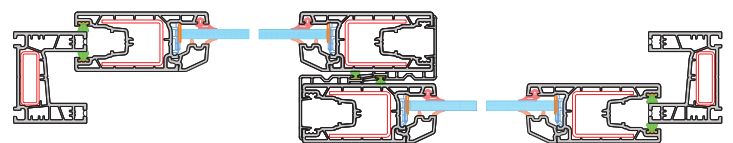

Sliding doors are the ultimate space-savers, perfect for tight spots like verandas and walkways. They boast multiple locking points for security and easy-fitting of insect screens for convenience. Compatible for any opening, especially on balconies or terraces.

DIMENSIONS

Min : H: 6ft x W: 5ft | **Max :** H: 10ft x W: 14ft

HARDWARE CROSS-SECTION

Imagine waking up to a home bathed in the prismatic hues of our coated uPVC, casting a calming aura that gently welcomes you into each day. Alluring, isn't it?

Experience the magic where quality craftsmanship meets visionary design, transforming your everyday into a celebration of personal style and boundless inspiration.

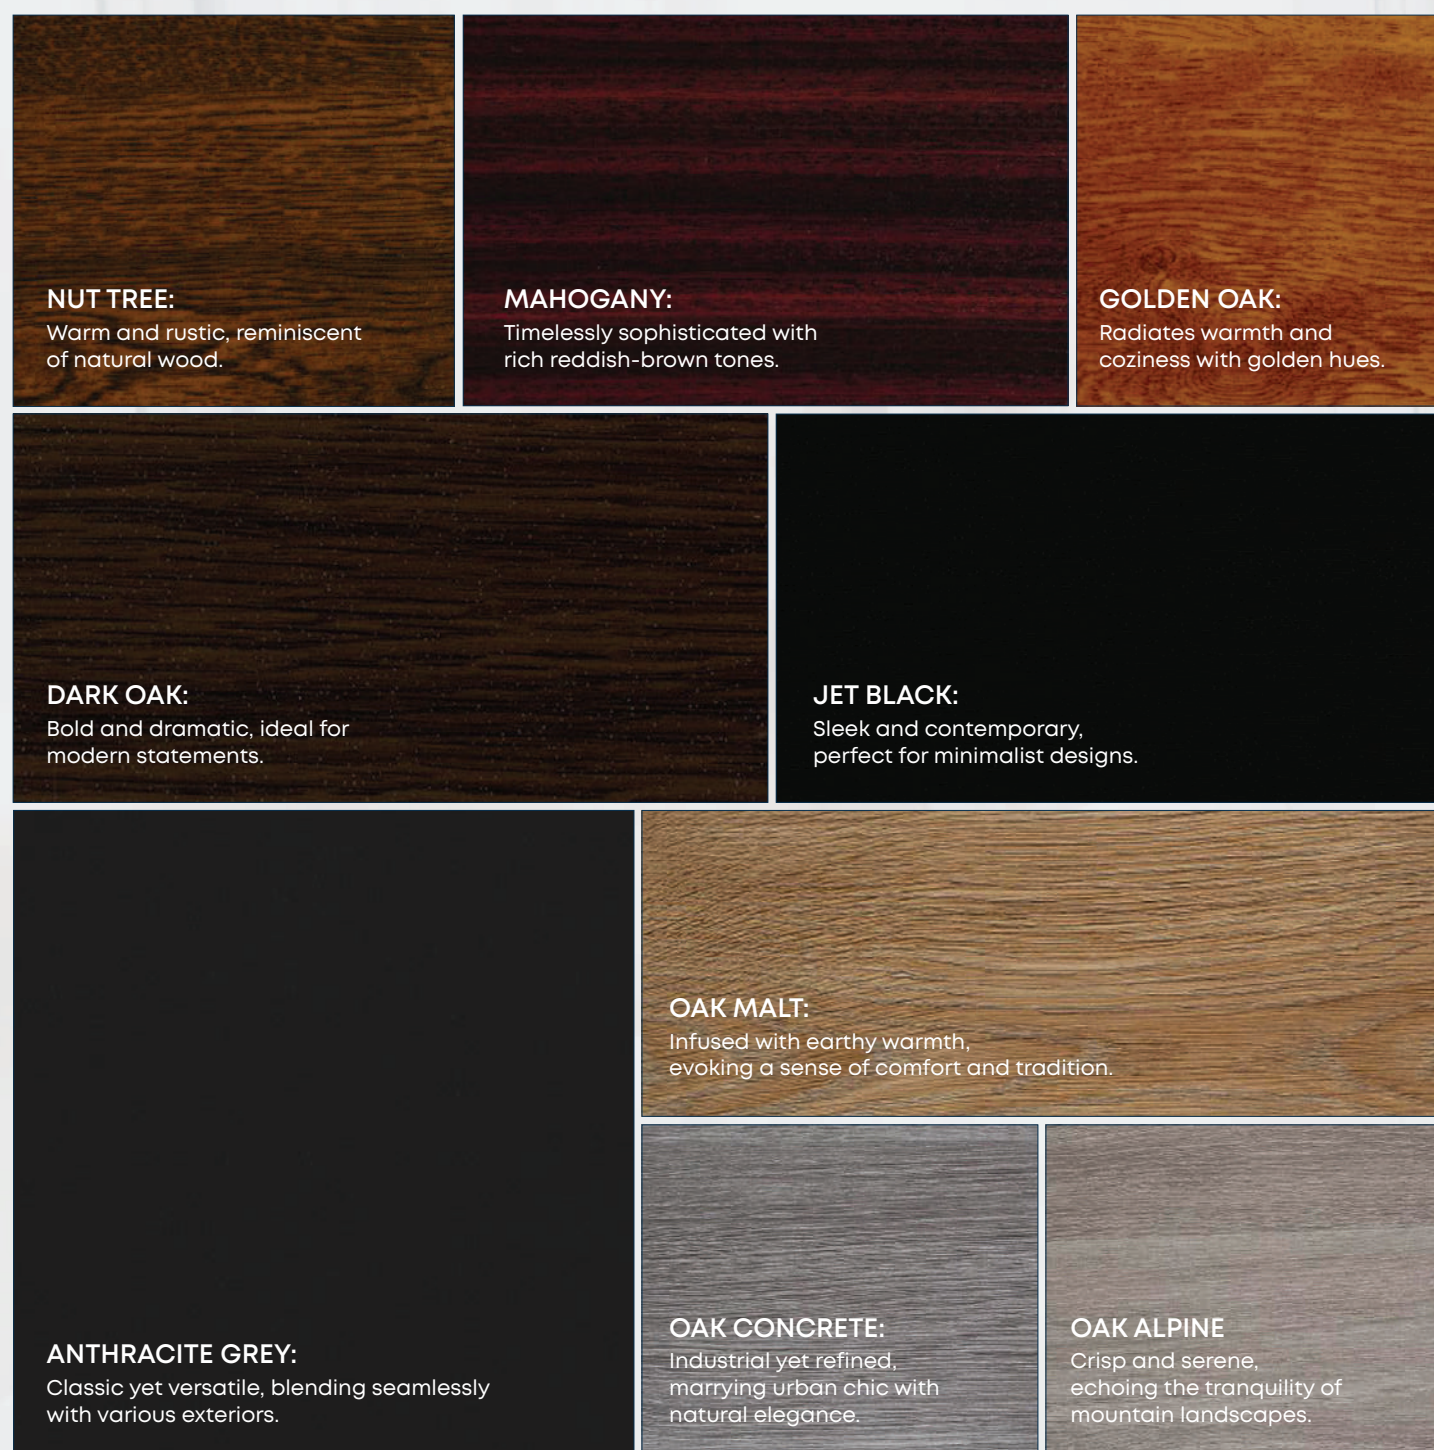

PASTEL BLUE
RAL 5024

THE SPECTRUM OF HUES - LAMINATED COLOURS

uPVC windows and doors offer a range of colours to match any style, combining aesthetics with durability. These options let homeowners express their style while enhancing the overall appearance. Whether warm and natural or bold and contemporary, uPVC provides both visual appeal and practicality, making it a preferred choice for modern homes and buildings.

Let's explore some of the captivating colour options available:

WE COMPLY WITH EUROPEAN STANDARDS: EN12608

EN12608 is a comprehensive standard that encompasses parameters crucial for assessing the quality and durability of uPVC window components.

ACCELERATED WEATHERING TEST:

Assessing window component durability and colour change against temperature, moisture, and UV exposure is crucial for many applications.

TENSILE IMPACT EXAMINATION:

This test evaluates uPVC windows' resilience to impact forces, detecting mechanical weaknesses if failure occurs at specific impact velocities.

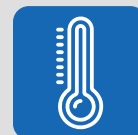

FLEXURAL MODULUS OF ELASTICITY ANALYSIS:

Examining the elasticity of materials is pivotal, as inadequate elasticity can lead to brittleness and heightened vulnerability to stress.

VICAT SOFTENING TEMPERATURE (VST) EVALUATION:

The Vicat Softening Temperature (VST) indicates the maximum penetration of uPVC profiles, with a lower VST indicating potential window deterioration at lower temperatures.

HEAT REVERSION TESTING:

Evaluating the ability of uPVC profiles to resist expansion or contraction at elevated temperatures is vital for preventing distortions such as window warping.

WELD STRENGTH ASSESSMENT:

Assessing the molecular bonding strength of fusion welding is critical for ensuring the integrity of welds and panels, thus averting potential cracks and failures.

HEAT AGING ANALYSIS:

Assessing resistance to cracks, peel-offs, and blisters at high temperatures is crucial for preventing profile ruptures and ensuring long-term performance.

RESTRICTION OF HAZARDOUS SUBSTANCES (RoHS) COMPLIANCE VERIFICATION:

Confirming compliance with lead-free standards is essential for meeting regulatory requirements and ensuring environmental responsibility.

QUALITY ASSURANCE: OUR COMMITMENT TO EXCELLENCE

Weatherseal by Asian Paints, is a trusted leader in India's window and door systems industry. With over 80 years of expertise in the paint sector, Asian Paints ensures quality products and services.

At Weatherseal, we prioritize both quality and aesthetics, holding ISO, RAL, and NCTL certifications. Our personalized end-to-end solutions ensure flawless delivery and installation. We focus on delivering high-quality uPVC windows and doors across India, with a strong emphasis on customer satisfaction.

For assistance, our 365-days call center support is available at +91-7676-51-9999, and customers can also reach us via email at sales@weatherseal.in. We are committed to transforming our customer's homes into sanctuaries of tranquility and safety.

QUALITY STANDARDS

ISO-9001 certificate

Implementing this quality management system requires constant enhancement and improvement of processes and products, which is monitored on a regular basis by the British Standards Institution (BSI).

Top innovator

This award is issued to the most innovative SMEs in Germany and is also one of the most well-respected corporate awards around.

RAL-certified

RAL Quality Marks identify products and services that are manufactured or provided according to high, precisely specified quality criteria and monitored on a regular basis by independent test institutes (SKZ, Süddeutsches Kunststoff-Zentrum and IFT, Institut für Fenstertechnik).

TEST CERTIFICATES

Reaction to Fire & Thermal Transmittance

THE HEARTWARMING STORIES BEHIND OUR SUCCESS

EXPERT HOME SOLUTIONS

Dear Weatherseal Team,

I am writing to express my satisfaction with the product quality and the 20-year warranty provided by your company. I am truly happy with this. I would also like to commend your installation team for their exceptional skills. In particular, I would like to thank Engineer Shubham for his extensive knowledge and valuable suggestions. Thanks to him, I was able to choose the best installation method. Once again, thank you to the entire Weatherseal team for your excellent service.

BALA DKHAR

Satisfied with the material, installation and the service. Special thanks to Mr Aman Tamang, the team & Mr Dhrubajyoti Dutta, the Service Manager for their good service and help.

RONAK PATEL

Nice work at my house nandu and team has done fine work in Nizampura Baroda Gujarat. All the best to their team.

MAUREEN JANNIE SANGMA

Excellent product and installation. Very good service. Special thanks to Prashant and Drubajyoti, Aman Tamang and the installation team.

MO FAHEEM

Weatherseal Windows and Doors Solutions not only provided environmentally friendly uPVC windows and doors but also ensured a smooth installation process. If you're looking for sustainable options without compromising on aesthetics, this is the way to go.

RAJIB MONDAL

Weather provides modernized products and improved quality. Mr. Dhurbo and Mr. Soumo made the installation process way too easy for Sandip Jaiswal's site. He will definitely go there for his next buy. Thanks team Weatherseal.

SMIT MEHTA

Great service and very knowledgeable team has done the installation in Gandhinagar Gujarat

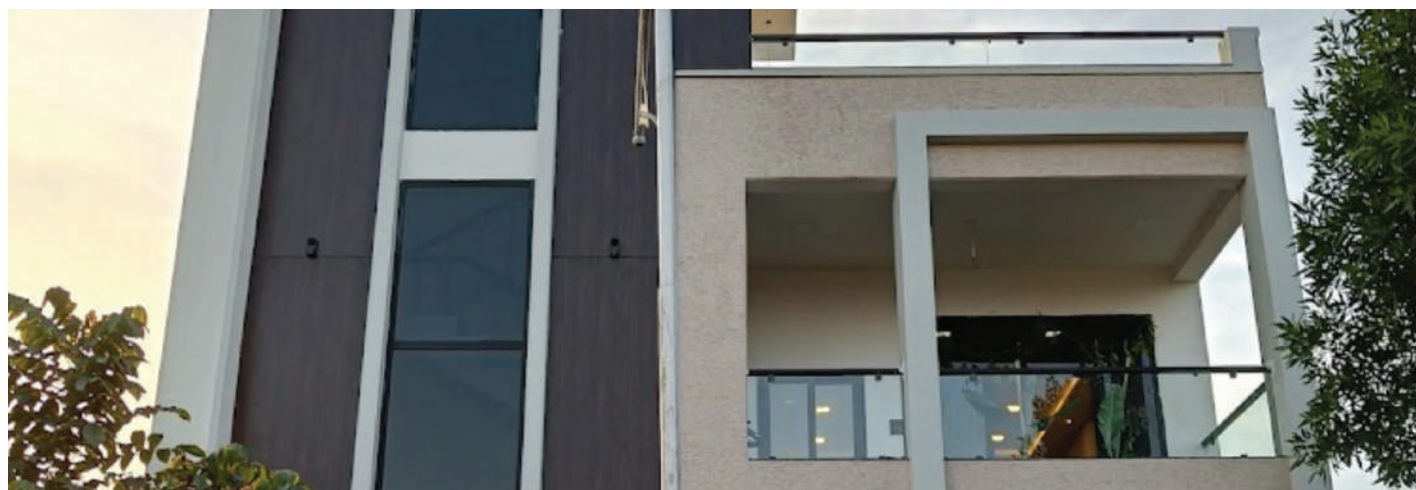

**RAJU PATIL**

Good quality and good service. Thank you for installation and support. Shubam jujar & panna Karthik agro industries pvt Ltd.

**SHIVA PRASSANA**

The whole process from inquiry, selection, quotation, installation and quality check goes with proper support and updates. The best feature is 20 years warranty, which is the best in the industry. Good things come to people who do a bit more research but if you need a long lasting thing with your home this company is the best choice. uPVC proves to be useful and very productive for framing windows and doors. All the doubts were cleared when I visited the showroom and sales team which was highly impressive and helpful. I recommend you all to go with Weatherseal.

They have got an experiential showroom showcasing windows such as Sliding, Casement, French, Top-hung, Fixed, Tilt N Turn, Ventilators and Doors such as Casement, French, Sliding and Bi-fold. Weatherseal provides windows with 100% perfection. It also focuses on security and strength of these windows. There you find products which are made of multi-locking system and are extremely strong. These uPVC materials are strong and safe. They come with anti-fading, anti-corrosion, anti-rusting, anti-rotting features. With options for glasses and color.

**GOPALACHYRA NADUR**

The workmanship is praiseworthy, the work is done with ease and efficiency my compliments to your staff I wish you all the best Rajesh.

SREENIVASA REDDY NARU

Team led by Rajesh installed the French doors, foldable and sliding perfectly. The team is cooperative and completed in time. Keep it up.

ANANTHAREDDY TERA

We have installed the Weatherseal uPVC windows and big size sliding doors for balconies, of our previous apartment building in SIRI TOWNSHIP-Manneguda, Hyd. And the work was completed by the team of Rajesh which is EXCELLENT. Even now we want the same for our present 2 PROJECTS, and also we would like to recommend this WEATHER SEAL uPVC windows and doors to our friends and relatives.

SREEKANTH REDDY

They maintained good quality standards and responded well to all my queries. Good job done by Rajesh and his team in terms of installation. Weatherseal by Asian paints is a good option for those who are looking for quality uPVC doors and windows at comparatively reasonable price.
